MediSked, LLC Announces a New Partnership with AHRC New York City as Provider of Human Service Software Solutions

Rochester, N.Y., (February 18, 2013) - - MediSked, LLC announces a new partnership with AHRC New York City as the provider of Human Service Software solutions. Through MediSked Connect, a leading online Agency Management Platform and the first of its kind in the nation, AHRC New York City will be able to centrally manage their technology, data, research and compliance requirements. For over sixty years, AHRC New York City has been dedicated to enhancing the lives of individuals with intellectual and developmental disabilities and their families. The six program implementation spans Medicaid Service Coordination (MSC), Adult Day Services (ADS), Residential, Community Habilitation/Home Care, Employee Business Services (EBS), and Camping and Recreation areas. AHRC New York City is the largest chapter of NYSARC, part of The Arc, which is America's largest non-profit organization serving people with intellectual and other developmental disabilities. The program implementation will be complete by the end of July with a go-live date of August 1, 2013. MediSked is headquartered at 850 University Avenue, Rochester, N.Y., 14607. For more information visit www.medisked.com.

"By partnering with MediSked, AHRC New York City expects to seamlessly access, report and track service recipient, employee and service information from anywhere including at point of care," said AHRC New York City Executive Director, Gary Lind. "This partnership further reinforces AHRC's commitment to enhancing the lives of individuals with intellectual and developmental disabilities and their families."

AHRC New York City is comprised of thousands of persons with intellectual and developmental disabilities, their families, friends and professionals offering a wide range of programs, services and support tailored to meet their specific needs.

(Con't)

“MediSked has demonstrated technical and business proficiencies while sharing AHRC’s mission to communicate effectively and efficiently in a timely manner in order to provide the highest quality of supports,” says Lind.

MediSked was first introduced to AHRC New York City by several other provider agencies in the Metro NYC area that also use MediSked Connect, including its sister chapter, AHRC Nassau. AHRC New York City and AHRC Nassau have partnered to create their own Managed Care Organization (MCO) called Partners Health Plan (PHP) in anticipation of the 2013 New York State Office of People with Developmental Disabilities transition to a Managed Care model for the new “People First” Medicaid waiver. AHRC New York City chose to implement MediSked Connect to simplify the transition to MCO and better serve members, their families and the dedicated staff.

“We are proud to assist AHRC New York City through our comprehensive software solution. By providing an easy to use and flexible service, AHRC’s team of dedicated professionals can better serve their members and families,” says Doug Golub, President of MediSked, LLC.

MediSked is located at 850 University Avenue, Rochester, N.Y., 14607, www.medisked.com.

ABOUT AHRC NEW YORK CITY

Founded in 19149, AHRC New York City is one of the largest consumer-based nonprofit organizations in New York City. Touching the lives of over 15,000 individuals annually with developmental/intellectual disabilities of all ages, from birth through the senior years at over 150 facilities in the five boroughs of New York, with close to 3,000 staff, AHRC New York City has a long standing reputation of excellence in service provision. The organization that created the first school, workshops, day treatment programs and community residences, continues to meet the needs of the individuals served in its programs. We offer individuals with intellectual and developmental disabilities a menu of supports, programs, and services tailored to meet their specific wishes and needs. The menu includes schools for children with autism spectrum disorder; programs for adults including supported employment, leisure time activities and residential opportunities; camp and recreation; a full array of clinical services, to list a few.
